GOVERNMENT OPPOSES

LONG RANGE FORECASTS.

Edward A. Beals Issues a Circular Condemning Weather Forecasts of Almanac Makers and Scientific Papers—Advises Patrons of Such Papers to Compare the Reports With the Actual Weather After It Happens.

Edward A. Beals, district weather forecaster for Oregon, has sent out a circular letter to the press, condemning what he calls the "long range" weather forecasts of the almanacs and scientific papers, and giving the reasons for the government's opposition to these forecasts.

The circular is as follows:

There are today in the United States, as well as in other civilized countries, a few persons who make their living by publishing so-called long-range weather forecasts, based upon old theories which have no foundation, and which scientific men long ago rejected. We also find in almost every community some man who sets himself up as a weather prophet, and who prognosticates, year after year, hard winters, dry spells and other calamities. Once in a great while he hits the mark, and then his "I told you so" receives public acknowledgment; all his previous misses are forgotten, and great is his fame throughout the land.

These men may be conscientious in their belief, or veritable tricksters; it matters not which, and does not change the fact that their sayings and doings are an inheritance of the dark ages, when all the world was veiled in superstition and ignorance. This we know, for by tracing back the mental progress of the human race we find that all savages today have their rain makers and their rain stoppers, and that the patriarchal tribes still believe that comets, eclipses and other unusual appearances forebode dire disasters. Also, anciently, the most civilized nations, such as the Chaldeans, Egyptians, Jews, Greeks and Romans had their soothsayers and oracles, who imposed upon a credulous public.

Latterly, the astrologers of the middle ages had a large following, and from the beginning of the 16th century up to the beginning of the 19th century they flooded Germany, France and Great Britain with almanacs containing prophecies of the weather, as well as prophecies regarding the minutest details of conduct in the daily lives of the people. These prophecies were the merest twaddle, but it took a long time after Copernicus had exploded the theory that our little world was the center of the universe before the belief in astrology received any check. Now it has so far disappeared that none but artful plunderers and ignorant dupes give it the slightest countenance.

It is not so with the so-called long range weather forecasts. Unfortunately, many people, and some of the less careful publishers, are apparently in ignorance of the true character of the work of these self-appointed prophets. We cannot account for the continued publication of their utterances in any other way.

Characterizing them as fakes and impostors avails us little. The people themselves must decide as to the true worth of their work. Let those who have any interest in the matter carefully compare the published forecasts with the actual weather day by day, for in no other way will the utter worthlessness of the whole mischievous business be exposed.

Yours very truly,

EDWARD A. BEALS.

SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c in stamps to The Herpicide Co., Detroit, Mich.

IN A BAD WAY.

Many a Pendleton Reader Will Feel Grateful for This Information.

When your back gives out;

Becomes lame, weak or aching;

When urinary troubles set in;

Your kidneys are "in a bad way."

Here's local evidence to prove it:

Mrs. G. W. Brown, who lives at the corner of Turner and B. Streets,

says: "I was unable to stoop without suffering the most intense pain

across the small of my back and

through my kidneys. I got my first

box of Doan's Kidney Pills at the

Brock & McComas drug store. I was

so sore and lame that I could not

stoop at the sink to wash. Doan's

Kidney Pills did away with the trouble.

If I did not honestly think that

Doan's Kidney Pills acted up to the

representations made by them I

would not set my name to an endorsement.

I know others who have used Doan's Kidney Pills with the same satisfaction."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.
